## Claims

- 1. A drug product for the prevention, improvement in conditions relating to, and/or treatment of bowel disease, comprising  $\beta$  (1 $\rightarrow$ 3) glucan derived from vegetable material and having a molecular weight of from about 5,000 to about 20,000.
- 2. The drug product of claim 1, wherein said vegetable matter comprises a mushroom.
- 3. The drug product of claim 1, wherein said  $\beta$  (1 $\rightarrow$ 3) glucan is obtained by hydrolysis of a glucan.
- 4. The drug product of claim 1, wherein said  $\beta$  (1 $\rightarrow$ 3) glucan is obtained from the aqueous extraction product of a mushroom.
- 5. The drug product of claim 4, wherein said  $\beta$  (1 $\rightarrow$ 3) glucan is further obtained by alcohol precipitation and decomposition.
- 6. The drug product of claim 1, which is suitable for oral administration.
- 7. The drug product of claim 1, where said bowel disease is inflammatory bowel disease.
- 8. The drug product of claim 1, wherein said molecular weight from about 5,000 to about 20,000 denotes an average molecular weight.
- 9. The drug product of claim 2, wherein said mushroom comprises a Shiitake.
- 10. The drug product of claim 1, which is in the form of a health food product.

- 11. A method of preventing, improving conditions relating to, and/or treating bowel disease comprising administering to a body a drug product comprising  $\beta$  (1 $\rightarrow$ 3) glucan derived from vegetable material and having a molecular weight of from 5,000 to 20,000.
- 12. The method of claim 11, wherein said  $\beta$  (1 $\rightarrow$ 3) is derived from a Shiitake mushroom.
- 13. The method of claim 11, wherein said drug product is suitable for oral administration.

xy

14. A drug product useful in preventing, improving conditions relating to, and/or treating bowel disease comprising  $\beta$  (1 $\rightarrow$ 3) glucan derived from a Shiitake mushroom and having a molecular weight from about 5,000 to about 20,000.

4

15. A method of preventing, improving conditions relating to, and/or treating bowel disease comprising administering to a body a drug product comprising  $\beta$  (1 $\rightarrow$ 3) glucan derived from a Shiitake mushroom and having a molecular weight of from 5,000 to 20,000.
